RE: Taxing Districts Impacts - Updated

DATE: February 10, 2020

As we were updating the financial assumptions for the potential Roads End Villages Urban Renewal Area (Area), we updated the projections and timing for new development in the Area. The new development is now expected to start at a later date than the original projections. Given the updated development projections, the Area is expected to produce about \$96,120,000 in tax increment funds in a 25-year time frame, resulting in an estimated \$50,860,000 for projects in 2020 dollars. This reduction in tax increment funds also means a reduction in the impacts to the taxing districts.

The frozen base assessed value of the area, if adopted is projected to be \$248,091,196. The assumptions used are a growth rate of 3% plus assumptions for specific amounts of assessed value growth in the urban renewal area relating to new development. The boundary used for this analysis is shown in Figure 1.

Table 1 – Projections for Roads End

	Previous Forecast (out of date, 2019 assumptions on future development)	New Forecast (2/10/20 updated assumptions on future development)
Total Tax Increment Funds	\$ 114,250,000	\$ 96,120,000
Maximum Indebtedness	\$ 97,600,000	\$ 83,000,000
\$ For Projects (2020\$)	\$ 61,130,000	\$ 50,860,000
Years 1-5	\$ 9,680,000	\$ 5,790,000
Years 6-10	\$ 11,300,000	\$ 8,880,000
Years 11-15	\$ 12,580,000	\$ 11,670,000
Years 16-20	\$ 13,410,000	\$ 12,150,000
Years 21-25	\$ 14,170,000	\$ 12,380,000

The tables showing projected impacts to the taxing districts are shown in Tables 2 through 6. Table 2 shows the impacts to General Government taxing districts with the new forecast including updated assumptions for future development in the Area. Table 3 shows the previous iteration of the same table of impacts to General Government taxing districts, based on the outdated assumptions for future development. Tables 4 and 5 show these impacts for Education taxing districts, with Table 4 showing the current estimates based on updated development assumptions, and Table 5 showing the previous iteration based on the outdated assumptions. Table 6 shows a comparison of the former projections and the current projections which result in a reduction in the estimated impacts to the taxing districts.

It is important to note that some of the new development being projected will occur as a result of the infrastructure investments from an urban renewal area. The impact on the public schools and education service districts is indirect, as they are funded through a state allocation called the State School Fund based on per pupil counts. Property taxes fund a portion of the State School Fund, but not all of it. The State School Fund is “backfilled” to meet the funding required for per pupil allocations.
